

## **Reclaiming the Goddess Apprenticeship 2020-21**

W.E.I.R.D. **W**omen **E**mpowered by **I**ntuition and **R**ecovering **D**reams

The definition of “Weird” as an adjective means something supernatural, as a noun in archaic Scottish, it means the path of one’s destiny, as a common verb in North America it means a sense of alienation or disbelief. This is a fitting description in all regards for the path we are about to embark upon. W.E.I.R.D. is a step onto paths known and unknown, trodden and forgotten, ancient and revitalised. The path of the Goddess. HER paths are many, and her wisdom tree reaches out in all directions, spanning generations of trauma, wisdom, resilience, and gifts. She has called you to this crossroads to step onto HER path.

Please review the proposed calendar syllabus. A ceremony and overview consultation happens with each Season. Engaged experiential learning through monthly online private mentoring, and online classroom for introductions of monthly materials, followed up by weekly email guidance to dive deeper. Course components may include dream journaling, creating sacred ceremonies, rituals of protection, researching herstory, creative exploration, community service or activism, designing your shield of power and purpose, creating a sacred dance, cooking up ancestral recipes, dream questing by staying out overnight in nature, herbal remedies, rituals of self care, creating an ancestral altar, sacred word spells, creating a unique Goddess Icon based on your year long exploration of HER. The Goddess will be revealed in whatever form she resonates with your individual W.E.I.R.D. path. She calls you to HER, as you also seek HER.
